Notice to Applicant

1. This communication is in response to the decision by the Board of Patent Appeals and Interferences, mailed 7/21/06. The rejections of claims 1-5 under 35 U.S.C. 112, 1st paragraph, and 35 U.S.C.103 (a) as obvious over Summerell in view of Riley, were reversed.

Allowable Subject Matter

2. Claims 1-5 are allowed.
3. The following is an examiner's statement of reasons for allowance:

In the BPAI decision mailed 6/26/06, it was determined that, Summerell et al (USPN 5,937,387), failed to teach or fairly suggest the step of "comparing the individual's health information to standardized profiles based upon age, sex, physical activity, dietary habits, past medical history to achieve optimal health or wellness," as recited in claim 1, step c). (page 10, lines 10-18, BPAI decision mailed 6/26/06) Furthermore, it was found that Riley failed to compensate for the shortcomings of the Summerell reference.

The closest prior art of record, Szabo (USPN 5,954,640) discloses a nutritional optimization method for individuals, but fails to disclose "generating a computer-implemented dietary supplement profile... listing the vitamins, minerals, amino acids, enzymes, and herbs to achieve optimal health and wellness."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Troy ("New Attitudes Drive Product Sales") discloses targeting nutritional supplements to population segments.
